

Mobile Entertainment Solutions  
Custom Software Solutions  
Web Services

i-XL is a successful, one-stop shop for anything in the world of mobile as we provide a wide range of solutions from designing and developing games & application to porting and testing games onto numerous handsets available in the market.

In addition, we also specialize in software solutions and providing various web services.

We, a group of adept and enthusiastic professionals, work within a strict framework of time and budget to produce some of the finest work in the disciplines of mobile entertainment, development, designing and technology.

i-XL Technologies also helps in leveraging offshore cost and scalability advantage to significantly reduce application development, mobile porting and testing cost. We provide high quality, time bound, cost effective outsourcing solutions in India.

Technology at work for **YOU**

## Technology at work for you

i-XL Technologies is a young and dynamic company spreading its wings to provide you with highly professional service for complete Mobile Entertainment Solutions, Custom Software development and Web Services.

We believe in integrating our skills with our clients' inputs to achieve desirable results. We have a highly responsive attitude towards the

### MISSION

**“To achieve service  
eXcellence and eXceed  
at whatever we do”**

### MOBILE APPLICATIONS

Mobile application simplifies our job by providing innovative solutions to do what we do normally and what is best described as complex mechanical tasks, just at a click of a button. They save us the much needed time that we would like to spend with our loved ones.

i-XL excel at application development on J2ME platform for wireless handset devices such as 60 and 40 series mobile phones. Our applications are highly customized with rich functionality, graphics and creativity that flawlessly integrate various mobile devices and mobile aggregators.

immediate needs of our clients and especially towards their future hopes and dreams as their business expands.

i-XL maintains consistent high quality level at every aspect of business. Quality Assurance both at product and processes levels is given a key importance at i-XL.

We, a group of adept and enthusiastic professionals, work within a strict framework of time and budget to produce some of the finest work in the disciplines of mobile entertainment, development, designing and technology.

### MOBILE PORTING AND TESTING

Porting mobile games to a sizable number of mobile phones has become a blockade for any developer to succeed globally. We at i-XL aim to partner with Mobile game developers/publishers who want to concentrate on game development and seek cooperation for porting for a vast range of devices. i-XL's competency and expertise

can provide cost and quality effective porting solutions. We understand the pressing needs of our clients for timely launch of the mobile games. Our efficient processes and methodology ensure that our porting procedures provide

customers faster time to market their games and applications. We are capable of developing applications using J2ME MIDP 1.0/2.0/2.1. Our Team has 500+ man hours working experience in porting to various J2ME handsets covering all major mobile handsets manufacturers.

**Nokia | Motorola | Samsung | Sony Ericsson | LG**

### CUSTOM SOLUTIONS

Leverage the power of i-XL Technologies to take your IT-driven business processes to the next level. The process comprises the complete SDLC from business case analysis to development and testing of the application. At i-XL we use technology to create powerful solutions to help you meet your business requirements.

### WEB SERVICE
